

VC WELCOME NOTE TO ZANZIBAR UNIVERSITY

The centre of Excellence for the acquisition and dissemination of knowledge

Assalamu Alaikum wa Rahmatullahi wa Barakatuhu

It gives me great pleasure and satisfaction to welcome all to the official Webpage of the Zanzibar University. I would like to convey special greetings to the academic and administrative staff, non-degree, undergraduate and graduate students, alumni, parents and guardians, well wishers public and regulators. This site is intended to indicate the aspects of high-level quality education, relevant research, career planning, social commitment, reflection of history and enrichment of reputability of the University. It will continue maintain interest in the environment-friendly campus and the values of truthfulness, hard work, professional integrity and institutional diversity and inclusiveness. This site will respect human dignity and privacy and ensures trusted partnership with community. The site includes the outlines of curricula, committees, almanac and updated information on staff and students' activities and achievements. It will avail communication portals and links for all, including alumni. The recent developments in interactive and virtual education expanded websites of Universities into the offering of online/blended leaning, replacing some of the traditional classes, where "face to face" interaction may not be always possible or mandated. This virtual domain requires staff training in preparation, delivery and deposition of content and innovative assessment strategies. These may be conducted through the Webpage media.

Once again, I welcome all of you and I wish you will make use this site, log in daily, update news and information and enrich the educational content for convenient consultation by the learners.

I wish you the best of health and prosperity.
